Objective

Final-year Information Technology student (2027 batch) and curious builder with a strong foundation in DSA and full-stack development. Experienced in building production-grade Agentic AI and MERN applications. Adept at using AI-assisted tools (Cursor, Claude) to accelerate development while ensuring the security and accuracy of outputs through testing and validation.

Education

B.Tech in Information Technology Oct 2023 – May 2027

- GL Bajaj Institute of Technology and Management, Uttar Pradesh
- CGPA: 8.16/10.0

Plato Public School, New Delhi

- Class XII: 84.4% 2022
- Class X: 91.6% 2020

Skills

- **Languages & Frameworks:** Java, Python, JavaScript, SQL, React.js, Node.js, Express.js.
- **Frontend:** HTML5, CSS3, Responsive Design.
- **Backend & APIs:** Node.js, Express.js, REST APIs, MongoDB, Agile/Scrum methodologies.
- **AI & Agentic Systems:** LLMs, RAG, ChromaDB, Google Gemini API, n8n, Prompt Engineering, LangChain/LangGraph.
- **Tools:** Git, GitHub, Postman, Claude, AntiGravity, Google Colab, ChatGPT-4.
- **Core CS:** DSA, OOPS, DBMS

Projects

Vera - End-to-End Financial Servicing Agent github.com/Vera

Python, LangGraph, Llama 3.3, GPT-4o, ChromaDB

- Built a **stateful agentic financial servicing system** using **LangGraph** with **Llama 3.3/GPT-4o**, integrating a deterministic **Python Policy Engine** to validate high-risk actions and escalate unsupported requests to human agents.
- Built a Compliance-Driven **RAG** Pipeline. Used **ChromaDB** to retrieve real-time banking policies to guide agent decisions, ensuring all automated actions are accurate and maintaining a clear, auditable log of every step for regulatory transparency.

OKI3 – LLM-Powered Interactive Storytelling Platform github.com/OKI3

Node.js, Express.js, Google Gen AI SDK (`@google/genai`), Gemini Interactions API, JavaScript

- Developed an **LLM-powered storytelling platform** using the **Google Gen AI SDK** and **Gemini Interactions API**, supporting **multi-turn conversations** with user-controlled genre, tone, and story prompts.
- Engineered a **REST API** with configurable system instructions and prompt engineering, enabling while maintaining conversational state across user interactions.

SB Works– Freelance Marketplace Platform github.com/SBWorks

React.js, Node.js, Express.js, MongoDB, Socket.IO

- Developed a **full-stack freelance marketplace** enabling project posting, bidding, project tracking, and secure communication between clients and freelancers using the **MERN** stack.
- Implemented real-time messaging using **Socket.IO** and an admin dashboard for managing users, projects, and platform activities.

Achievements & Certifications

- **Professional Certifications:** Hugging Face *Foundation of Agents*, OpenAI *Agents & Workflows*, AICTE *Full Stack Developer-MERN stack Virtual Internship*, AWS *Cloud Foundations*, Cisco Networking Academy *Cyber Threat Management*.
- **Problem Solving:** Solved **500+** DSA problems on LeetCode with a peak contest rating of **1615**.

Extracurricular Activities

Team Lead, Design and Media | *CodeSpace Club* August 2025 – August 2026

- Lead a creative team of **5+ members**, facilitating weekly collaborative sessions to design assets for **15+ tech events** and workshops.
- Translating complex technical concepts into engaging visual campaigns that increased event attendance by **30%**.
